

ALIENS UNCHECKED,  
SAYS JUDGE KNOXGiven Too Much Freedom in  
Maintaining Customs  
of Homeland.LUNCHEON FOR JURIST  
Young Federal Appointee Is  
Guest of Lawyers' Club  
Members.

Americans are chiefly responsible for the alien enemy problems confronting the country to-day, in the opinion of John C. Knox, who lately was appointed judge of the United States District Court for the Southern District of New York. Judge Knox was formerly an Assistant United States District Attorney, and as such his prosecutions of the nation's enemies in the past year have given him a peculiar knowledge of their mental attitudes.

He holds that in permitting them to come in unlimited numbers to our shores and to segregate themselves, if they desired, and maintain to their hearts' content the traditions, customs and ideals of the land of their nativity, we have left them too much alone in other words, we have failed to give them the proper supervision and to arouse the proper spirit of patriotic enthusiasm which would make them good American citizens.

These views were given expression yesterday before more than 100 prominent lawyers and jurists who attended a luncheon in the Lawyers Club at 115 Broadway in honor of Mr. Knox's elevation to the Federal bench. Before speaking himself he heard praise from J. B. Clark of the Title Guaranty and Trust Company, who presided; James W. Gerard, H. S. Knickerbocker, former United States District Attorney, and Burroughs Judge Robert L. Fowler.

The youthful appointee—he is one of the youngest Federal Judges in the country—was enthusiastically welcomed by expressions of personal regard as well as the acknowledgment of his worth as a man and citizen. His first utterance could scarcely be heard. After reviewing briefly his career of thirteen years in New York, "the Mecca of ambitious young men," he touched upon the alien question at the request of Chairman Clark.

Speaking of immigrants in general, he said: "We have exploited their labor for years, but we haven't made them good Americans. Our problem and duty is to see to it that they become citizens so that in times of storm and stress like the present they will owe allegiance to the country, and not to the alien enemy." He then said that the alien enemy situation to-day is the logical outgrowth of our alien situation.

He defended the Department of Justice, which frequently has been criticized for apparent leniency toward aliens, asserting that it is ever vigilant in running down and prosecuting the enemies of the country, and urging that judgment be suspended until more of its activities were known and understood.

The Secretary of the Navy, he went on, was damned both by prominent men and newspapers until the public finally came to his support with a knowledge of what had been achieved by his Department. The same thing was true, he predicted, that a similar situation would arise as regards the United States Attorney-General.

Judge Knox came to New York nearly thirteen years ago from Pennsylvania, his native State, and entered the legal department of the Title Guaranty and Trust Company. In September, 1912, he was made an Assistant United States District Attorney, holding this office until his recent appointment as a Federal Judge.

COLUMBIA NAMES COMMITTEE  
Aims to Repeat Last Year's Commemoration Programme.

Columbia has begun preparations for its second war time commemoration. A commemorative committee of the Alumni Federation was appointed yesterday, the following are members: Chairman, Edgar J. Moeller, '85; Chairman, J. Arthur Booth, '78; Prof. Charles Knapp, '87; Edmund S. Joy, '88; George E. Warren, '05; Frank D. Packard, '06; Frederick Coykendall, '95; and I. Tyson, '11.

It has been decided the programme to be presented shall coincide as nearly as possible with that of last year. The only change will be the addition of a baseball game for the variety line, as the sport was resumed this spring. A luncheon for all alumni will be given at the Yonkers Hotel, and headquarters established for the usual reunions and alumni organizations.

The usual presentation of gifts will take place immediately after the adjournment of the formal commemorative services, before the luncheon is held.

## TRIANGULAR AIR COURSE.

Training Flights from Lincoln, Springfield and Boston Suggested.

Springfield, Mass., April 20.—Details have been announced here today of a plan suggested by the Chamber of Commerce that will be submitted to the War Department for a triangular training course for students with Springfield, Lincoln, I. I. Springfield and Boston as landing points.

The plan originated with Mr. W. Rose, a resident of the Springfield Aircraft Corporation, and would locate hangars on the field that is being used for trial flights here. The proximity of the aircraft plant for repair work is considered an advantage. It is also suggested a short course be laid out between this city and Westfield, where Camp Bartlett is located.

## GHENT COUNCIL OUSTED.

German Dissolve Body Sympathetic to Patriots.

WASHINGTON, April 20.—Dissolution of the municipal council of Ghent by the German authorities and appointment of German officials to carry on its functions, the council had previously claimed its sympathy with Burgomaster Braun and Alderman Dierckx was reported today to the Belgian Legation here.

Braun and Dierckx recently were removed by the Germans because of their patriotic resistance to the separatist intrigues of the Activists.
